

LONDON DRY GIN BERGAMOT PEPPER

London Dry Gin
44%

Description:

When two ideas come together to an combined one, the result shall be outstanding.

This is what happened when we developed this London Dry Gin Bergamot Pepper. The idea to use Andaliman- and Wild-Jungle-Pepper in a gin, has been on our table already for a long time. Then, one day, bergamot crossed our path and we fell in love spontaneously.

The result is a Gin that impresses through its fruitiness as well as peppery spice and ensnares the palates of everyone who try it.

Nose:

Fresh Lemon notes, peppery-spicy, delicate juniper notes, Appeal of apricot and mint

Palate:

peppery prelude, intense Lemon, delicate juniper notes, sweet-fruity finish, apricot notes
