

FLAVORED VODKA ROWAN BERRY

Flavored Vodka
40%

Description:

With our organic flavored Vodkas we pursue absolute new ground.

First, they were our first organic products. And second we don't flavor with industrial flavors like it's done usually.

We distill the flavors by ourselves in our garage distillery.

Therefore, the rowan berries are macerated for several weeks in organic grain alcohol and distilled thereafter.

Neutral organic Vodka is then added to this distillate. This mixture then rests several weeks for harmonization before it gets bottled.

The result is a very smooth Vodka with hints of marzipan.

Nose:

clear freshness, marzipan, earthy-rooty, slightly fruity, mossy, bitterchocolate

Palate:

straightly, warming, fruity, marzipan, bitterchocolate, mossy-earthly, balanced sweetness, menthol freshness, long-lasting finish
