

G+ CLASSIC EDITION GIN

London Dry Gin
44%

Description:

Our G + Classic Edition was conceived in 2014 as a straight-line Gin with a dominant juniper note, which is only subtly ensnared by citrus and floral notes. It was important to us to make a strong Gin, yet is still characterised by a fine freshness.

The concept was right, because the first international tasting we took part in already gave us sensational success. The "who's who" of the world's Gin producers meet every year at the "San Francisco World Spirits Competition". Of the 121 Gins submitted from around the world, only 10 products received a double gold medal and one of them went to our G+ Classic Edition Gin.

Whether enjoyed pure or as a mix, it is a hit. Due to the straightforward style, it can be mixed almost as desired. Whether with tonic, elderflower juice, champagne or much more.

Nose:

very intense, powerful, grandiose juniper, a lot of animating freshness, clear citrus fruit, floral notes

Palate:

mild, refreshing juniper berries, citrus notes, floral notes, persistent length, very harmonious and compact
