

G+ TANGERINE EDITION GIN

London Dry Gin
44%

Description:

The finest sun-ripened mandarins from Calabria and spicy thyme are, besides juniper, the most important botanicals of the G+ Tangerine Edition Gin.

Both introduce themselves as quite confident in the glass. The essential oils of the tangerine dominate in the nose, rounded with thyme spice and then intensified again in the finish. A pleasant astringency comes from the tangerine and a mild sweetness from the thyme.

Nose:

fresh juniper-citrus dialogue, coniferous notes, botanicals in the base, tangerine, intense orange peel, typical albedo tones, mint, cool menthol, clear juniper background, anise, caraway.

Palate:

Fine fragrance copy, citrus, berry-oily, somewhat resinous-stalked, juniper, mandarin, orange, raspberry, rooty aspects, ginger, aniseed, mint, eucalyptus, straightforward, balanced, good density and length.
