

RUM CASK STRENGTH

Rum
56,8%

Description:

This rum is distilled twice from sugar cane molasses using our fruit brandy expertise. The distillate is matured in new American Oak barrels and is allowed to mature until it suits our quality standards for taste and harmony. The sweet notes of the distillate are perfectly rounded off by the sweetness from the new barrels.

For this special release we used for the first time a unique yeast that enforces fruity notes. The rum was only matured for 20 months in new American oak barrels to keep the fruity notes and to prevent that the taste of the new barrels becomes too dominating. To prevent any disruption of the perfect balance the rum was bottled unfiltered.

Nose:

strong rum esters, honey, caramel, vanilla, fine smoke aromas, dried pear, dark cherries

Palate:

caramel, rum ester, honey, fruity, mango, dried fruit, vanilla, smoky, fine sweetness of wood, warming strong finish
