

G+ FLOWER EDITION GIN

London Dry Gin
44%

Description:

As the name suggests, our G+ Flower Edition Gin is very flowery. The fresh juniper gives way to the floral notes and only supports from the background. Playful fine floral scents from lavender to violet to chamomile give the diva of our Gin range an extravagant appearance. Diva-like because it doesn't open to everyone. Only the true flower lover will appreciate their appearance. For others, it remains an unapproachable mystery.

Nose:

violet, lavender and chamomile, slight hints of juniper, very intensely floral and hints of citrus.

Palate:

massive, compact, especially violet, mild, persistent length, very harmonious
