

SAFFRON INFUSED DRY GIN

Dry Gin
44%

Description:

The Saffron infused Dry Gin is bright yellow and powerful in taste. The saffron makes the Gin a little oily and makes it taste even more rounded - almost mature. It flatters the palate and, above all, invites you to pure enjoyment. The fine notes of saffron on the nose give it that certain something. We use Austrian saffron for the production, mainly from Burgenland, the Weinviertel and Waldviertel.

Nose:

very intense juniper aroma, spicy notes of saffron, lots of animating freshness, clear citrus fruit, floral notes

Palate:

oily, thick saffron, mild, spicy, refreshing, juniper berries, persistent length, very harmonious, compact, delicately tart,
